DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest an extracorporeal blood treatment system comprising a treatment device, an internal web server, internal web browser, and user interface that communicates with external web servers, wherein data communication between the user interface and the treatment device is effected through the internal browser, along with the other steps and limitations of the claims. The prior art of record, US 6,551,266 to Davis and 2003/0154108 A1 to Fletcher-Hayes, discloses a blood treatment machine with a user interface and communication software to connect with external servers, but fails to disclose that communication between the blood treatment machine and the user interface takes place through an internal browser. Therefore, the instant invention is patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie R. Deak whose telephone number is 571-272-4943. The examiner can normally be reached on M-F 7:30-5:00, every other Friday off.
